Where Futures Begin

Administrative Offices 1490 N. Oak Road Davison, MI 48423

January 20, 2012

To Whom It May Concern:

It is with great pleasure that I write this letter of recommendation for DCC Construction. I have had the pleasure of working with DCC on two large construction projects totaling \$2.3 million over the years, highlighted as follows:

- 2004 Thomson Elementary School Renovations – Project included new construction, major interior renovations, new windows, exterior doors, restroom renovations, and new roof. Project total was \$1.0 million.
- 2011 Davison High School and Davison Middle School Technology Upgrade Project – Project included complete rewiring of each school building, including electrical, low voltage data, phone, and cable TV wiring. Project total was \$1.3 million.
- Miscellaneous small projects including exterior site work, minor renovations, and repairs.

I have been very pleased with the level of organization, professionalism, integrity, and follow-up that DCC demonstrated in completing each of our projects. From the first construction meetings through the final close-outs, each project was well planned and executed. As issues arose, they worked with us on finding alternate cost effective solutions on a timely basis. They faced scheduling issues head-on, and completed construction on-time in each project. At Thomson Elementary DCC worked superbly with us on the unique scheduling challenges of the project, given the extensive work in the building during a ten-week summer break. The 2011 Technology Upgrade Project was highly complex, given the existing conditions and restrictions, from both scheduling and building restriction standpoints. They coordinated work with the building staff very well, minimizing any disruption to the school day.

DCC does an excellent job of managing their subcontractors. They work through issues with their subcontractors very well, keeping focus on completing the job correctly the first time, and following up with their subcontractors. They employ very capable site superintendents, who manage their jobs and the subcontractors very effectively. DCC is one of the few contractors I call when I need minor construction work done in the district, as I can trust their quality of work.

I strongly recommend DCC Construction to you without reservation. If you have further questions please do not hesitate to contact me.

Sincerely,

Daniel Romzek

Hi Craig,

In my meeting with Denise yesterday, she requested a letter of recommendation from me, and I am pleased to provide it attached.

Thank you again for the excellent work on the IT projects at DHS and DMS this past year. I am very proud of this project and am very pleased and impressed with Denise and her quality of work. She is a real gem, and I hope you are taking good care of her!

Best wishes to you and DCC for your continued success, as I make my transition to Rochester Schools next week. I have truly enjoyed partnering with your firm on Davison construction projects over the years.

Dan
